

The figure consists of two side-by-side box plots. The left plot is titled 'Adult Income' and the right plot is titled 'Bank Marketing'. Both plots share a common y-axis with three categories: Blue, Orange, and Green. The x-axis for 'Adult Income' ranges from 0.375 to 0.525, while the x-axis for 'Bank Marketing' ranges from 0.30 to 0.50. Each box plot shows the median (vertical line inside the box), the interquartile range (the box itself), and the range of the data (whiskers). Outliers are represented by open circles.

**Adult Income Data Summary:**

Category	Min	Q1	Median	Q3	Max	Outliers
Blue	0.370	0.380	0.385	0.390	0.405	0.365, 0.425
Orange	0.370	0.380	0.390	0.400	0.410	0.365, 0.425
Green	0.385	0.390	0.395	0.400	0.405	0.365, 0.425
Blue	0.460	0.475	0.485	0.495	0.510	None
Orange	0.450	0.470	0.485	0.505	0.515	None
Green	0.460	0.475	0.480	0.490	0.495	0.435

**Bank Marketing Data Summary:**

Category	Min	Q1	Median	Q3	Max	Outliers
Blue	0.380	0.405	0.415	0.425	0.445	0.510
Orange	0.350	0.385	0.395	0.405	0.445	0.300
Green	0.340	0.385	0.415	0.425	0.445	0.300

A boxplot showing the distribution of the number of children per family for three groups: Blue, Orange, and Green. The x-axis represents the number of children, with major ticks at 0.00, 0.05, 0.10, and 0.15. The Blue group (top) has a median around 0.08, an IQR from approximately 0.04 to 0.10, and whiskers extending from 0.01 to 0.12. The Orange group (middle) has a median around 0.06, an IQR from approximately 0.05 to 0.09, and whiskers extending from 0.03 to 0.12. The Green group (bottom) has a median around 0.09, an IQR from approximately 0.05 to 0.11, and whiskers extending from 0.00 to 0.15. There is an outlier for the Orange group at approximately 0.17.

A box plot showing the distribution of the number of children per woman for three countries: China (blue), India (orange), and the United States (green). The x-axis represents the number of children, ranging from 0.1 to 0.5. The y-axis lists the countries. Each box plot displays the median (vertical line inside the box), the interquartile range (the box itself), and the full range of the data (whiskers). Outliers are represented by open circles.

Country	Min	Q1	Median	Q3	Max	Outliers
China	0.08	0.22	0.25	0.33	0.41	0.55
India	0.15	0.22	0.25	0.33	0.40	0.05
United States	0.08	0.21	0.24	0.30	0.43	None
